

Easy fold-and-cut Glider

INSTRUCTIONS

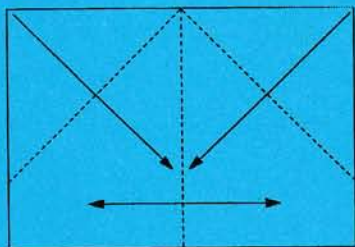

Tools required:

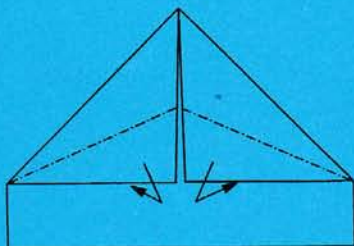

1. A pair of safety scissors
2. An adult to supervise folding and cutting and to offer praise and encouragement!

Easy fold-and-cut Glider INSTRUCTIONS

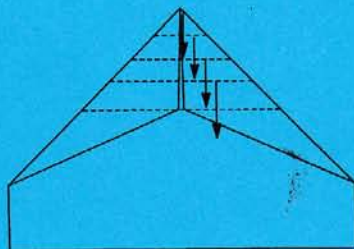

©L&R Hartley Merchandising. Ref AWW6/94 Reproduced with permission

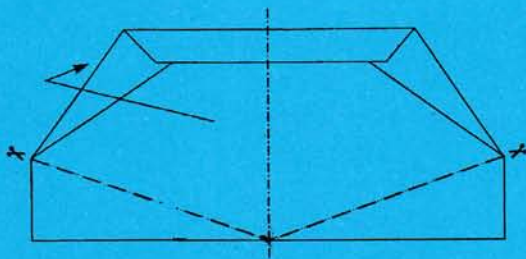

1. Unfold a sheet the special heavy-weight paper in this pack.
Now fold the top corners in.

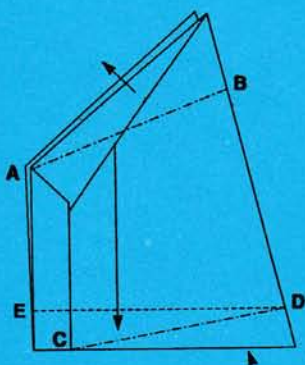

2. Fold the lower flaps inside and behind.

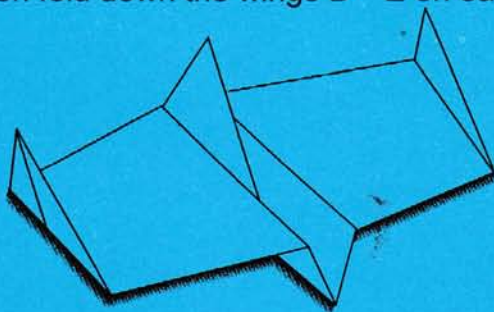

3. Fold down the nose four times, each fold being 20mm apart.
This is 20 mm |—————|

4. Carefully cut off the bottom corners along the cut lines shown.
Then fold the model behind in half.
Rotate the model so it looks like the next picture:

5. Fold the fins A—B inwards.
Crease—fold, then
push the tail inside the model along C—D
and then fold down the wings D—E on each side.

6. Level the wings and fin as shown to make the finished glider.
Hold it horizontally, aim high and throw it hard, away from you.
